Important Investment Information

All EB-5 investments must be “at risk” per USCIS requirements. Risk of loss exists. Any protections and guaranties negotiated at fund level are not exercisable by individual investors themselves but are administered by fund management only. No guarantees exist regarding individual investors’ ability to be repaid.

This is not an offer to sell securities in any way and is only educational. Only a formal, privately distributed offering memorandum and appropriate securities documents, fully executed by an accredited investor, will represent any offer or subsequent sale of investment. This information package was prepared specifically for EB5AN, LLC, and its affiliates (together “EB5AN”), and those whom EB5AN has chosen to receive this educational information. These materials are distributed in confidence, are internally sensitive, and are subject to internal corporate confidentiality policies. Those who have received this information package in error should destroy its contents immediately.

Those who are privileged with access to this packet, whether on a consulting or investment basis, should acknowledge this packet may contain what the industry refers to as “forward looking statements” or “projections” from EB5AN. The words “intend,” “believe,” “expect,” “anticipate,” “target,” and other similar language herein identify such projections. The projections that are included in this document are those opinions of EB5AN about future operations. Therefore, these projections are subject to uncertainties and changes, many of which are beyond the control of EB5AN, which may cause the relevant actual results to be materially different from the results expressed or implied by such projections.

No assurance or representation is made by any person that any forecast or projection will be achieved. Therefore, nothing contained herein should be relied upon as a promise, forecast, guarantee, or a representation regarding the future.

This document is educational and informational, and items including policy, program structures, financial models, feasibility studies, and other documentation may change without notification. If outside sources or other documentation or information appears different or in conflict with the content presented in this information package, contact EB5AN for verification on receiving the latest drafts or identifying accurate data.

Information prepared on electronic media such as PowerPoint, Prezi, websites, blogs, WeChat, or other methods of delivery are often truncated and summarized to improve readability; details of any legal nature should only be respected through the specific confidential offering documents provided by EB5AN to such qualified or accredited investors capable of subscribing.

EB5AN Is Committed to 100% EB-5 Investment Transparency

EB5AN Is Pleased to Make the Following Key EB-5 Investment Due Diligence Documents Available to All EB-5 Investors

- ✓ The complete set of Form I-956F “exemplar” EB-5 documents filed with USCIS
- ✓ The complete Form I-526E individual investor document set template
- ✓ The current financial statements of the project company developing the project showing proof of developer equity invested to date
- ✓ The executed loan agreement between the project company and the construction lender
- ✓ Executed agreements with third-party contractors and service providers
- ✓ Any other available documents related to the development of the project and the EB-5 investment

Other EB-5 Regional Centers

- ✗ Not willing to share the entire Form I-956F “exemplar” or Form I-526E template with all exhibits
- ✗ Not willing to share the current financial statements of the company developing the project because they do not exist, reflect losses, or reflect that no developer equity has been funded
- ✗ Not willing to share an executed senior loan agreement or other critical operations-related documents because they do not exist
- ✗ Not willing to share evidence of eligible EB-5 jobs already created to date because they do not exist
- ✗ Not willing to share evidence of the economic feasibility of the project with contractual revenues/sales because they do not exist

Use common sense. If an EB-5 company is not willing to provide the basic documents needed to evaluate the financial position of an EB-5 project, avoid that project. Get access to and review critical financial documents for the project. Invest only if you know and are comfortable with the current financial position of the companies involved.

How to Identify Red Flags for EB-5 Investments

For many EB-5 investors, an \$800,000 EB-5 investment will be the largest investment they have ever made.

Some EB-5 investors may not have experience making real estate investments or other private equity investments. As a result, many EB-5 investors may not know what questions to ask and what documents to focus on when evaluating potential EB-5 investments.

Many EB-5 projects appear to be “safe” and have nice renderings but have minimal security and are very risky. An inexperienced investor can have a difficult time separating these “risky” projects from the safer ones.

EB5AN has prepared many articles to help EB-5 investors evaluate potential EB-5 real estate development projects. Our articles help EB-5 investors identify and understand the impact of the most common risks found in such projects.

View these articles at [EB5AN.com](#).

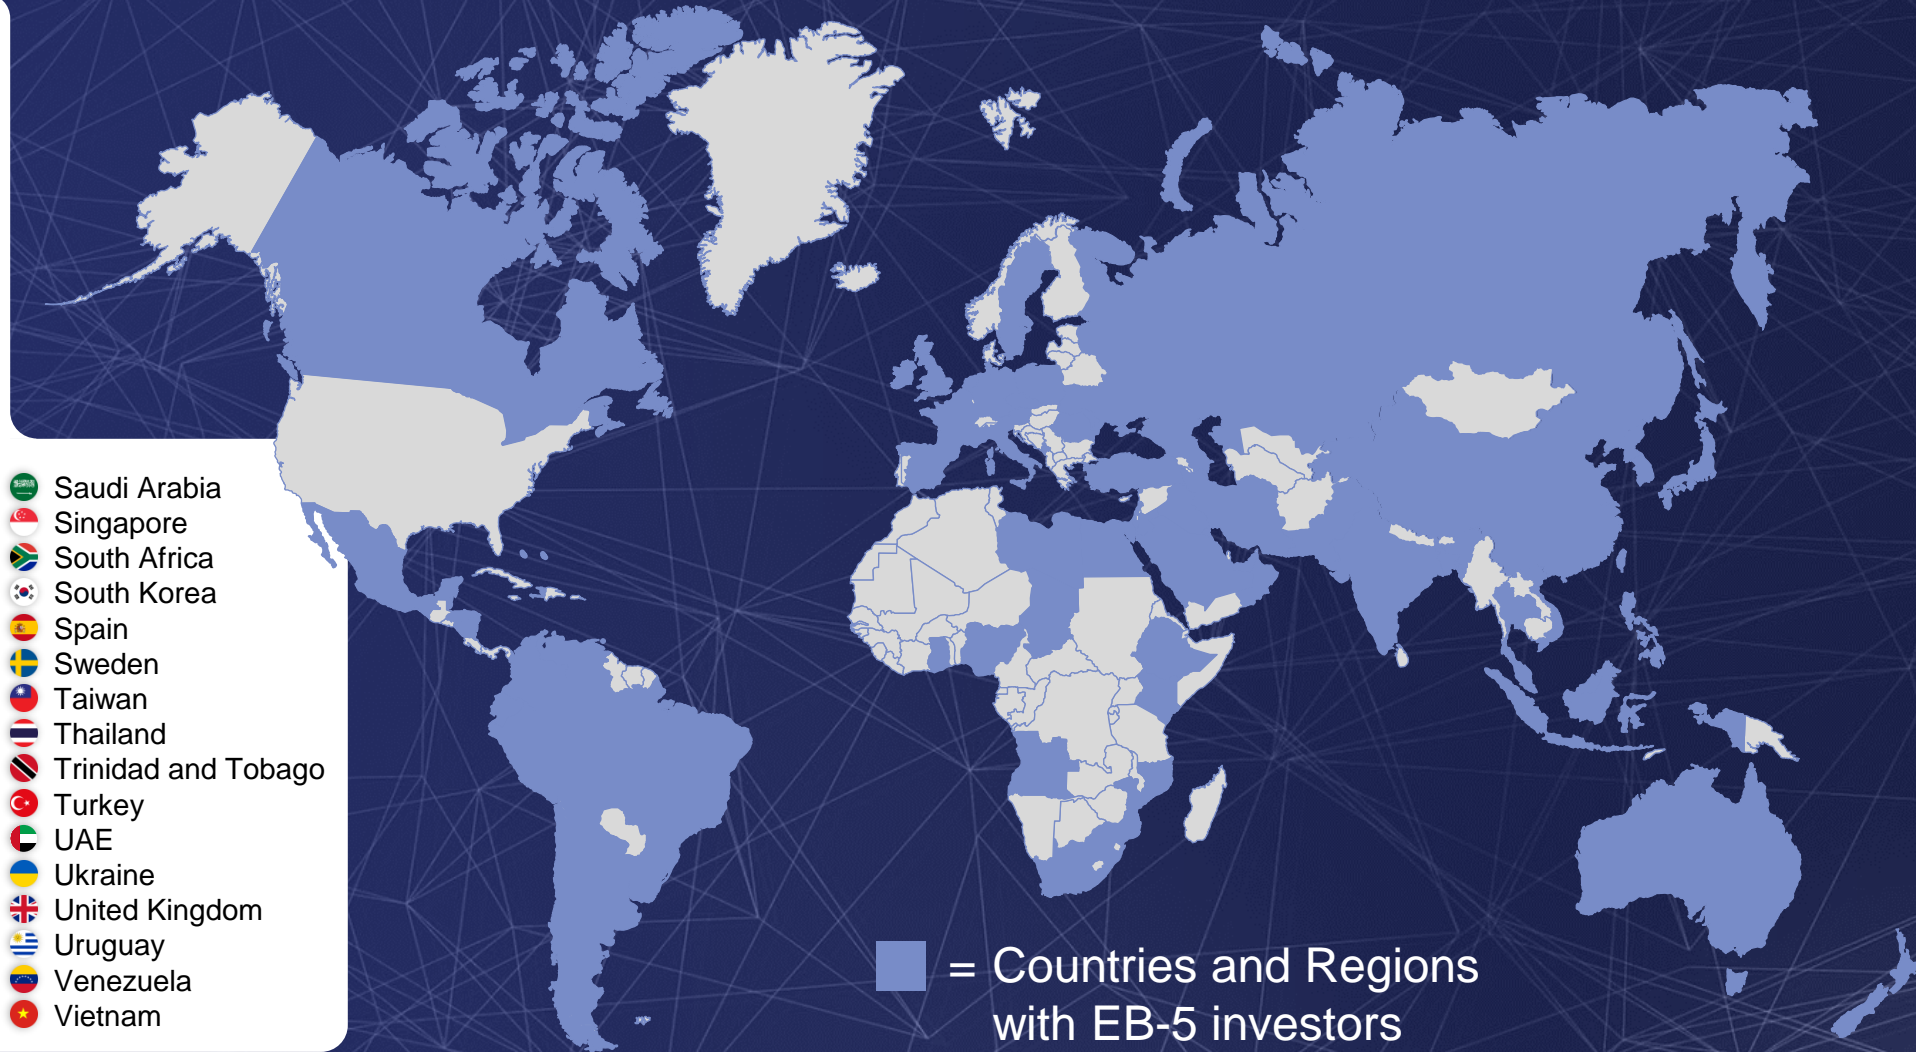

We strongly recommend that EB-5 investors take the time to understand real estate development investments so that they make an educated EB-5 investment decision and increase the likelihood of receiving permanent Green Card approval and a timely repayment of their EB-5 investment funds.

If you need help or don't know where to start, just ask, and we can point you in the right direction.
